Version 2.0

Steampunk
(c) by Kobi Lifshitz

Created: 2/11/2022
Last Modified: 3/7/2022

Model Description

This model is built by reverse engineering of the database built originally by Copper River for OHC.
This is done in effort to sanitize the existing database and incorporate into the model only active and relevant object as a baseline to the delivery by Steampunk of the modified process.
